

DIAMOND MULTI-SAW BLADES AND SEGMENTS FOR GRANITE BLOCK CUTTING

Features: 20-30pcs same diameter diamond saw blades per machine is suitable for 4 column machine, such as 1200mm Multi-Blades, this is popular out of China specially in Iran market. 10-20pcs different diameters(2) diamond saw blades per machine is suitable for single arm machine, like 5 big 5 small blades together such as 5pcs 1600mm blades and 5pcs 1000mm blades, all segments specification are same.

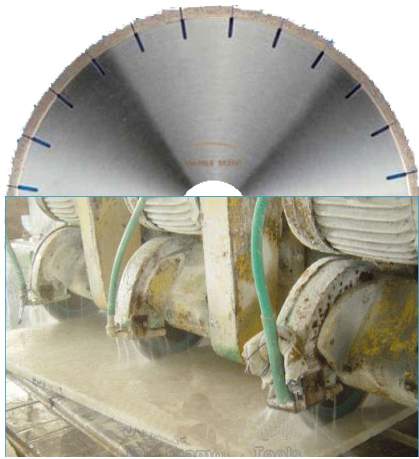

Mainly used for cutting granite rough blocks and slabs.

Applications: Characterised by high efficiency.

part#	dia.	Segment Dimension	Segment Number	Using Together
B26900- 30	900	24 X 6.8/6.0 X	64	30
B261000- 30	1000	12	70	30
B261200- 30	1200	24 X 8.0/7.0 X	80	30
B26800- 15	800	24 X 6.8/6.0 X	66	15
B261200- 15	1200	24 X 7.6/6.5 X	80	15
B261300 - 30	1300	24 X 8.2/7.8 X	88	30
B261600- 30	1600	24 X 9.5/8.5 X	108	30

"OFF-CUT" BLADES FOR MARBLE

Features: Cross Cutting Diamond Saw Blades for Marble
Applications: Usually For the cutting of marble or Limestone or other soft material

part#	dia.	width	height	Using Together
B2710-110	10"	.110"(2.8mm)	8/10mm	2~10
B2712-110	12"	.110"(2.8mm)	8/10mm	2~10
B2714-125	14"	.125"(3.2mm)	8/10mm	2~10
B2716-140	16"	.140"(3.6mm)	8/10mm	2~10

HORIZONTAL CUTTING DIAMOND SAW BLADES

Features: Horizontal Cutting Diamond Saw Blades for Granite and
Applications: Used for granite multi-saw blades cutting machine and marble block cutting machine to cut the slab from the block bottom edge.

part#	dia.	width	Core	height
B2812-175	12"	.175"(4.5mm)	2.8/7.5mm	8/10mm
B2814-175	14"	.175"(4.5mm)	2.8/7.5mm	8/10mm
B2816-175	16"	.175"(4.5mm)	2.8/7.5mm	8/10mm
B2818-175	18"	.175"(4.5mm)	2.8/7.5mm	8/10mm
